

Georgia needs reforms that would streamline and encourage the deployment of 5G wireless broadband infrastructure, such as small cell technologies. Encouraging wireless broadband deployment in Georgia is paramount, because it will create jobs, increase gross state product, benefit consumers and spur innovation.

With reforms to infrastructure policies, Georgia could see:

\$8.74B	\$17.67B	\$5.3B	16,063
Invested in Georgia	Additional Georgia Gross State Product	Employment Earnings for the State	Additional Jobs Per Year

\$39.4 billion in statewide consumer benefits from 5G Services
