

Tennessee needs reforms that would streamline and encourage the deployment of 5G wireless broadband infrastructure, such as small cell technologies. Encouraging wireless broadband deployment in Tennessee is paramount, because it will create jobs, increase gross state product, benefit consumers and spur innovation.

With reforms to infrastructure policies, Tennessee could see:

\$5.82B	\$11.85B	\$3.42B	9,932
Invested in Tennessee	Additional Tennessee Gross State Product	Employment Earnings for the State	Additional Jobs Per Year

\$26.2 billion in statewide consumer benefits from 5G Services
